The following is a tabulation of the amounts (in metric tons) of kerosene, pyrites and bauxite shipped by the Soviet DDSG on the Danube River during December 1954 as well as during the entire year:

Annual total ¹	32,422	13,562	22,243	898	27,030

Annual total	39,642	26,731	12,911

Comment. Total amount of pyrites unloaded during 1954 exceeds the amount loaded 25X1 because six barges loaded in December 1953 had been forced to wait at Turni Severin for the Danube to thaw out before delivering their cargo of pyrites.
